

We are engaged in manufacturing of a wide range of pharmaceutical products finding application across various therapeutic areas. We also manufacture pharmaceutical products under loan license or contract manufacturing for our clients. We have developed our product portfolio in various dosage forms that includes Tablets, Capsules, External Preparation (Cream/Gel/Ointment/Lotion), Oral Liquid and Dry Syrup. Our products cater to the major therapeutic areas, including Antibacterial, Antitussive, Analgesic, Anticold, Antacid, Antimalarial, Antifungal, Antidiarrheal, Anti-Allergy, etc

We operate from our WHO-GMP approved manufacturing facility situated at Bavla, Ahmedabad which is spread across 9,212.63 sq. mtrs. Our manufacturing facility comprises of two separate manufacturing blocks (i) General pharma product manufacturing plant and (ii) Beta Lactum plant. The facility is equipped with automated and efficient machines along with various filtration, centrifugation, drying system and other equipment, in-house laboratory, a storage facility to store finished goods and raw materials.

The beta lactum plant produces beta-lactam and cephalosporins antibiotics such as such as Cefixime, Amoxicillin, Ampicillin, Cefpodoxime, Cefadroxil & lactic Acid, Cefuroxime, Flucloxacillin, Cloxacillin, Cephalexin etc. in the form of Tablets, Capsule and Dry Syrup. Due to the high risk of cross-contamination, beta-lactam production requires specialized containment and isolation from other drug manufacturing areas. Our dedicated beta lactum plant is therefore focused on manufacturing of antibiotics in controlled, standalone facility to prevent cross-contamination, ensure worker safety, and meet strict global regulatory standards. The General Pharma product plant makes everyday formulations such as Erythromycin Tablets and Suspension, Omeprazole Capsules, Pantoprazole with Domperidone Capsules, Diclofeanc Gel, Hydrocortisone acetate cream, Dextromethorphan with Phenylephrine and Chlorpheniramine Syrup, Artemether and Lumefantrine Tablets, Ambroxol with Levosalbutamol and Guaiphenesin Syrup, Paracetamol with Ibuprofen Suspension and tablets , Paracetamol Suspension and tablets ,Paracetamol with Doclofenac and Caffeine Tablets, Azithromycin Tablets and Suspension, Levocetirizine with Montelukast Syrup and Tables, Pregabalin Capsules etc.

We manufacture pharmaceutical products in the form of Tablets, Capsules, External Preparation (Cream/Gel/Ointment/Lotion), Oral Liquid and Dry Syrup. Our facility has received FDCA License, WHO Certificate, ISO 9001:2015 quality management system certification and ISO 14001:2015 Environment Management System certification for manufacturing of General Tablets, Capsules, Oral Liquid, External Preparations and Dry Syrup. During the Fiscal 2025, 2024 and 2023 we derived revenue from sales of 250, 67 and 21 number of pharmaceutical products

We also undertake contract manufacturing of pharmaceutical products on a loan license basis, wherein our manufacturing facilities are utilized by third-party companies (loan license holders) who possess the necessary marketing authorizations and market the products under their own brand names. This model enables us to optimize our manufacturing capacities and establish long-term business relationships. In addition to contract manufacturing, we also sell our products to third-party distributors and participants in the pharmaceutical market. Under this arrangement, we sell finished goods on a principal-to-principal model.

We focus on introducing our products in the emerging markets. Our facility received approval from The Food & Drugs Authority, Ghana and Pharmaceutical Manufacturer Registration License from Kingdom of Cambodia. Furthermore, we have applied for approvals/registration of our facility from the regulatory authorities of Dubai, Iraq and North Sudan. Currently, we export our products largely through local merchant exporters in countries like: Angola, Cameroon, Congo, Fiji, Iraq, Liberia, Myanmar, Guyanna, Nigeria, Qatar, Papua new guinea, Sierra Leone, Soloman, Somalia, South sudan UAE, Zambia etc.

Our Company is led by our Promoter, Chetan Rugnathbhai Matholiya, Jayeshkumar Amarshibhai Sabava and Akashbhai Mansukhbhai Gangadiya having an experience of around 11 years, 11 years and 8 years in the pharmaceutical industry respectively. Our experience and exposure in the industry allow us to deal with various types of formulation used in various applications.
